Just because the Wuhan coronavirus (Covid-19) "pandemic" is over does not mean that the powers that be are done creating and unleashing deadly bioweapons.

Addressing this in a recent campaign appearance with Tucker Carlson, 2024 presidential contender Robert F. Kennedy Jr. [revealed that](#) there are thousands of what he described as "death scientists"

in the United States who are keeping busy developing new pathogens that they hope will become killer bioweapons.

They are doing this, Kennedy maintains, in secret biolabs that litter the American landscape in plain sight, one of them being the secret biolab in Reedley, Calif., near Fresno, that was recently [shut down](#) by authorities over safety concerns.

There are many more biolabs where this one came from, it turns out. Kennedy revealed to Carlson that there are 36,000 scientists who were assigned to develop these bioweapons by none other than Tony Fauci, the former head of the National Institute of Allergy and Infectious Diseases (NIAID).

Former President Barack Hussein Obama ignored multiple warnings about Fauci's experiments, Kennedy further explains. Instead, Obama allowed the projects to continue, and here we now are.

Now that Tucker Carlson left *Fox News*, he can freely talk about so much more: Ukraine, COVID, and JFK's assassination

The topic came up as Kennedy and Carlson were discussing the U.S.-run biolabs that litter the Ukrainian landscape. According to Kennedy, the U.S. "has biolabs in Ukraine because we are making bioweapons."

"Anthony Fauci got all the responsibility for bioweapons development," Kennedy went on to explain.

Already, there have been at least three killer viruses that have "escaped" from separate biolabs in America. If things continue as is, there will be many more that escape in the coming days.

"In 2014, 300 scientists wrote to President Obama and said, 'You've got to shut down Anthony Fauci because he is going to create a microbe that will cause a global pandemic,'" Kennedy explained.

"And so, Obama signed a moratorium and shut down the 18 worst of Anthony Fauci's experiments, where most of them were taking place in North Carolina by a scientist called Ralph Baric."

Many of Fauci's bioweapons programs were offshored in order to avoid scrutiny. In essence, Fauci wanted to hide his dirty work from the public, as well as from law enforcement seeing as how what he was doing is *illegal*, not to mention the epitome of crimes against humanity.

 **BOMBSHELL:** @TuckerCarlson asked @RobertKennedyJr about the shadowy biolabs in Ukraine. RFK's jaw-dropping answer, if proven true, could shake the very foundations of trust and demands unparalleled consequences for both Anthony Fauci and Ralph Baric.

"Tucker asked Robert what's the most powerful organization in America? This question was asked because Robert was saying the government is still illegally refusing to release the JFK documents and must be protecting not an individual but an entity," someone also mentioned on X (formerly known as Twitter) about the subject matter the two discussed.

"That entity is the Committee of 300 who ordered JFK assassinated."

"Tucker is allowing RFK Jr. to speak the truth about Ukraine, COVID, and JFK's assassination," wrote another. "It's the truth that the media and establishment don't want you to hear. It's the truth that would've been censored if Tucker was still on *Fox News*."
